248	dial	9 + 963-nnnn	5-nnnn	nnnn	9 + 586-nnnn
586	dial	3-nnnn	5-nnnn	9 + 248-nnnn	nnnn

To call any number on the opposite page, dial 9 + the seven digit number.

Services encompass telephone (local and inter-city), intercom systems, fixed and mobile radio communication systems, radio paging systems, teletype systems, data communication systems, facsimile, video, satellite and various other special telecommunication systems.

Both operational and advisory services are provided. Operational services include telecommunication systems design, systems/service acquisition, systems implementation, and the provision and management of common telecommunication services (Centrex services, Inter-City Network). Advisory services include system feasibility studies, systems planning, hardware and software evaluation, project management and coordination and both the preparation of request for proposals and evaluation of supplier proposals. To obtain information or assistance regarding these services, call your MGS User Support Coordinator. See page 206.

## **TELEX, TWX AND TELECOPIERS**

---

Telex and TWX are teleprinter systems which provide direct station to station communications anywhere in the world where there are compatible systems. Telecopier terminals permit the transmission of hard copy communication from one location to another.

Many Ontario Government Ministries employ these devices to transmit messages or document images to and from other offices, both inside and outside the government.

**Using the service:** For the convenience of those who wish to communicate with telex or facsimile terminals in Government offices, key contact numbers are shown where applicable, in the respective office listings. For Ontario Government numbers not found in this directory, or for numbers anywhere else in the world, telephone the facsimile mail service of the Ministry of Government Services, at 965-5521.

If you wish information on acquiring this type of equipment, contact your MGS User Support Coordinator. See page 206.

## **ONTARIO COMMUNICATIONS NETWORK**

---

The Ontario Communications Network (OCN) is an enhanced network resulting from the use of computer-based telephone and network management facilities. The Ministry of Government Services — Computer and Telecommunications Services (CTS) — is continuing the implementation of these enhancements across the province.

Once you are converted to the new Network, it will no longer be necessary to know or use the Inter-City Network (ICN) codes. The uniform dialing procedure will automatically connect you to the appropriate line, to reach any of the locations served by the Network.

Over the next few years, the OCN will be extended to various regional centres. After 1990, when high speed "digital" lines become available, the network will become a multi-service one for the transmission of voice, data, graphics, pictures and video information.

Training programs will be carried out for employees in all locations before the telephones are connected to the improved Network. Until your telephone system has been converted, you should continue to use the existing ICN codes.

You can find out more about the Network by calling your MGS User Support Coordinator. See page 206.

If you experience any problems with the OCN, call the CTS User Service Desk at 963-3900.

---

## INTER-CITY NETWORK

---

those locations which have not had enhanced computer-based network services installed, access to the Inter-City Network (ICN) remains as before. If your phone system is enhanced, please refer to the previous page.

The Ontario Government telecommunication networks enable a caller to dial directly from government centrex lines in Toronto and **consolidated** centres in Kingston, Oshawa and Hamilton, to hundreds of other Ontario localities without incurring a long distance toll charge. **It is to be used only for the conduct of government business by the staff of Government of Ontario Ministries and approved agencies, and members of the Provincial Parliament.**

If you are calling from Toronto exchange 963, 965 or 248, you can use the Inter-City Network to place a call to a point outside the Metro Toronto free calling area. Staff who are served by "stored logic" telephone systems can access the Inter-City Network by referring to the operating instructions provided with that equipment.

ICN

The following pages contain a chart listing Ontario cities and towns, and showing the ICN and area codes to be used to access them.

At first the number shown in the "Inter-City" column, for the locality you wish to reach, then the seven-digit local telephone number.

If no Inter-City number for that locality is shown, you should place your call through regular long distance means. For this purpose, the area codes are also displayed. For area codes of localities not listed, consult your Bell directory, or call the Bell long distance operator.

For information regarding access codes on the Inter-City Network, or to report troubles, call the Queen's Park operator at 5-1191.

## COMMERCIAL STANDARDS PROGRAM

555 Yonge Street  
Toronto Ontario M7A 2H6

The components of this program promote a high level of ethical business conduct by ensuring public disclosure of the essential elements of business transactions and the registration and licensing of persons dealing with the public. The various branches also conduct inspections of the financial operations of the regulated industries. In addition, the program provides services for incorporation of companies and the administration of The Motor Vehicle Accident Claims Fund which handles claims and payments for damage done by stolen, unidentified or uninsured motor vehicles.

The Commercial Registration Appeal Tribunal is the mechanism that allows licensees and registrants to appeal decisions of the Liquor Licence Board and/or proposals made by the Registrars of regulated industries. Appeals of decisions regarding compensation fund claims under the Ontario New

Home Warranties Plan Act and the Travel Industry Act are also heard.

# ALPHABETICAL LISTINGS

## Explanatory Notes

### PAGE NUMBER

The number in brackets immediately following the employee's given name indicates the Office Listing (yellow) page on which that employee's name appears. For employees whose names are printed only in the alphabetical list, no such number appears.

### LOCATION

The city or town name is shown for each employee, to enable directory users to distinguish between local and long-distance telephone numbers. Before calling any location other than Toronto, refer to the Free Calling area or the Inter-City Network, contained in the preliminary section of this directory.

The full address of any employee can be readily determined either by referring back to the appropriate Office Listing (yellow) page using the page number provided, or by telephoning the employee.

### MINISTRY IDENTIFIER

An employee's ministry is designated by the following identifiers. These identifiers are for the purpose of this directory only and are not approved designations. Employees of agencies, boards and commissions will be listed as if they were employed by the parent ministry.

## Ministry of Government Services

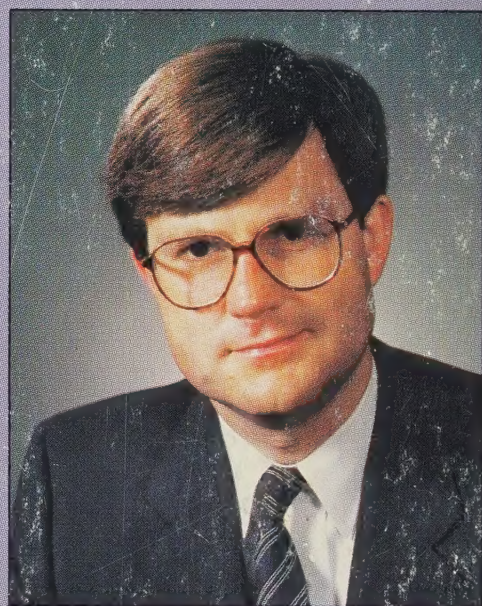

The Government of Ontario believes in the widest possible accessibility to the people of the province. In this spirit of openness, we have enlisted state-of-the-art technology to bring the proceedings of the Legislature directly into the homes of Ontarians through television.

This summer, the 94-year-old Legislative Chamber was remodelled by the Ministry of Government Services to prepare for the installation of equipment by the Legislative Assembly to film and broadcast the proceedings of the House and its committees. This "electronic Hansard" constitutes an official record of the proceedings, as does the printed transcript.

A further measure to open the Legislature to the public was the installation of simultaneous translation facilities. Members of the Legislature and visitors in the gallery can now listen to the proceedings in either English or French.

The government telephone directory is also a valuable communications medium, both for government employees and members of the public.

If you require further information, the staff at the Citizens' Inquiry Bureau will be happy to assist you. Please phone them at 965-3535.

*The Honourable Sean Conway  
Acting Minister  
of Government Services*
